Fire Safety Module
ESOL Student
This learning resource was developed by Fire & Rescue NSW.

It is designed to integrate fire safety training into English as a second language program.

It should be used in conjunction with the booklet ‘Fire Safety and Prevention in the Home’ published by Fire & Rescue NSW or with the website of Fire & Rescue NSW www.fire.nsw.gov.au

The activities in the resource are aligned to learning outcomes in the Certificate II in Spoken and Written English.

Copies of this resource and the associated audio track can be found at www.fire.nsw.gov.au free of charge but NO changes must be made to the content.

Unit 1  Fire Safety at Home

Fire Safety and You

1. Read the question and tick the answers.
   a. What type of building do you live in?
      □ house     □ flat     □ town house     □ semi detached
   b. How much do you know about home fire safety?
      □ nothing □ a little □ a lot
   c. Which words do you know?
      □ smoke alarms □ chemicals
      □ home escape plan □ home fire safety

2. These words are about fire dangers. Write the words in the box under the correct picture.

<table>
<thead>
<tr>

Fire Safety in the Home

1. Read this information.

Home fire safety plan
This information is from FRNSW’s ‘Fire Safety & Prevention in the Home’ booklet.
- FRNSW responds to approximately 4500 Residential fires each year
- Half of all residential fires start in the kitchen
- You’re twice as likely to die in a home fire if you don’t have a working smoke alarm
- Liquid Petroleum Gas (LPG) can be extremely dangerous if stored or used incorrectly

What causes most house-fires?
- The leading cause of home fires in NSW is leaving cooking unattended.
- A high percentage of home fires are caused by electrical appliances and faults.
- The misuse of heaters, cigarettes and candles are common causes of fires.

Are you fire safe in the home?
Do you know what to do in a house fire?
If you need to escape from a house fire, will you be able to do so safely?

Keeping your home safe from fire
- Install smoke alarms in suitable places and test them regularly.
- Prepare a home-escape plan in case of fire and practise it regularly.
- Make sure you have keys to all locked doors in case you need to escape.
- Never leave cooking or any other open flame unattended.
- Clean the lint filter in your clothes dryer each and every time you use it.
- Never smoke in bed and be careful when you drink alcohol and smoke.
- In winter take extra care when using heaters, electric blankets or open fires.
- Do not overload power-points and switch off appliances when not in use.
- Always keep lighters and matches away from children.
- Store chemicals and fuels in a safe place.
  • Check your barbeque is safe before you light it.

Now use the information to do these exercises.

2. Match the instructions in the box with the correct picture. Write the numbers in the boxes. One has been done for you.

a. Make sure you __**have**__ keys to all locked doors in case you need to escape.
b. Never __**leave**__ cooking or any other open flame unattended.
c. Never __**smoke**__ in bed and be careful when you drink alcohol and smoke.
d. Always __**store**__ lighters and matches away from children.
e. __**Check**__ chemicals and fuels in a safe place.
f. __**Keep**__ your barbeque is safe before you light it.
Imperatives
We use the imperative form to tell someone what to do or to give instructions. This means that the verb goes first.
Example: Install suitable smoke alarms and test them monthly.
We use don’t to form negative imperatives.
Example: Don’t overload power points

4. Read these instructions. Cross out Do or Don’t. One has been done for you.
   a. Do Don’t test your smoke alarms monthly.
   b. Do Don’t have regular fire drill/practice.
   c. Do Don’t keep all your doors locked at all times.
   d. Do Don’t stay away from the stove while you are cooking.
   e. Do Don’t clean your dryer filter every time you use it.
   f. Do Don’t be careful when you use electric blankets or heaters.
   g. Do Don’t let your children play with matches.
   h. Do Don’t safely store chemicals and fuels.
   i. Do Don’t regularly clean your gutters if you live near bushland.

Markers of time, manner and place
To add more information to instructions, we add markers or circumstances such as:
Time eg: soon, then
Place eg: on the table, in Sydney
Manner eg: quickly

5. Underline the markers in the following instructions. Tick if they are time or place.
   a. Install smoke alarms in the correct position and test them monthly. ☑

   - overloaded power-point ☐
   - clothes dryer ☐
   - electric blankets ☐
   - fuels ☐
   - heaters ☐
   - barbeque ☐
   - matches ☐

2. Tick the fire safety things you have in your home.
   - smoke alarm ☐
   - fire safety plan ☐
   - windows that can open ☐
   - keys to all doors ☐

3. Read the following instructions and underline the verbs in the imperative form
   a. Keep calm and act quickly, get everyone out as soon as possible.
   b. Don’t waste time investigating what’s happened or rescuing valuables.
   c. If there is smoke, keep low where the air is clearer.
   d. If it’s safe to do so, close all doors on the way out to prevent fire and smoke from spreading.
   e. Once you get out, stay out. Never go back inside a burning building.
   f. Call Triple Zero (000) from a neighbour’s or your mobile phone.

   - Know two ways out of every room.
   - Make sure your windows can open.
   - Decide on an outside meeting place.
   - Draw your escape plan.
   - Talk about the escape plan with everyone in the house.
   - Practise your escape plan regularly.

4. Read this information about fire escape plans.
5. Read the information.

FACT - Having a home escape plan in conjunction with a working smoke alarm will greatly increase your chances of getting out safely. Every second counts.

6. Match the words with their meanings. Use your dictionary to help you.

Fire Safety in High-Rise Buildings

1. Read these instructions for fire safety in high-rise buildings.

SMOKE ALARMS

Fire fighting equipment

On every level of the building there will be fire-fighting equipment such as fire hose reels and portable fire extinguishers.

- You MUST know where the fire hose reels and portable fire extinguishers are.
- Make sure your unit has working smoke alarms installed.

Fire-escape plan

- You MUST know where the emergency exits are. They are green and white.
- NEVER use the lifts when there is a fire.
- Decide on an outside meeting place.
- Draw an escape plan.
- Talk about the escape plan with everyone in the unit and practise the escape plan regularly.

Fire stairs

- Fire stairs will lead you to a safe place away from the building.
- NEVER leave a fire stair door open.
- NEVER leave anything in the fire stairs at anytime!
- Report any problems with fire stairs and fire doors to the management immediately.

Fire safety tips

If you cannot escape by the fire stairs:

- Close all windows and doors to stop the smoke entering your unit.
- Phone 000 and tell the operator there is a fire in your block of unit.
- Tell the operator your unit number and that you are unable to get out of the building.
- If you are unable to use the phone go to the balcony and shout to passers-by.
2. Answer these questions about fire safety in high-rise buildings.
   a. What are two pieces of fire equipment in high-rise buildings?
   b. What fire safety equipment should you have in your unit?
   c. What colour are the exit signs?
   d. If there is a fire, how should you leave the building?
   e. How do you make sure fire stairs are safe at all times?
   f. If you can’t get out of your unit, what should you do?

Smoke Alarms

1. Read this information about smoke alarms.

**SMOKE ALARMS**

A smoke alarm is a life-saving device. It detects smoke and sends out a loud sharp sound to alert you.

It’s the law to have at least one working smoke alarm installed on every level of your home. Smoke alarms reduce deaths from house fires by 50%.

When you are asleep, you cannot smell smoke and smoke puts you into a deeper sleep. You may not know your house is on fire. If there is a fire, toxic fumes may overcome you before you wake up.

Therefore you should install a smoke alarm where it can detect smoke before it reaches the bedrooms. This will give everyone time to evacuate. The ideal position is on the ceiling between sleeping and living areas.

Avoid fitting smoke alarms in or near your kitchen or bathroom. This will avoid false alarms.

You MUST test smoke alarms regularly to ensure that the alarm is working.

You can buy smoke alarms at most hardware shops and department stores.

2. Write the number of the paragraph where you find the information to answer these questions. One has been done for you.

g. Don't put smoke alarms near ________________ or bathrooms.

h. This will avoid ________________.

i. You can buy smoke alarms at most ________________ and ________________.

Installing Smoke Alarms

1. Read this information about installing smoke alarms.

There are two types of smoke alarms:

1. Battery powered smoke alarms can easily be installed by home owners or handymen.

2. Hard wired smoke alarms must be installed by a licensed electrician or professional installer.

Fire & Rescue NSW recommends the installation of hard wired smoke alarms.

Always read the smoke alarm instructions before installing.

Smoke alarms work best when they are installed on the ceiling, away from walls and fittings.

The law requires one smoke alarm to be installed on each level of a home.

Fire & Rescue NSW recommend installing smoke alarms:

• in the hallways leading from the kitchen to the bedrooms
• in all bedrooms.

The Australian Standard symbol on the packaging shows if the alarm is approved and safe.

Your local Fire & Rescue NSW station will be happy to give you advice on which type is best suited for you.

2. Read the information about installing smoke alarms again. Answer these questions.

a. Who can install a battery powered smoke alarms?

________________ or ________________

b. Who must install a hardwired smoke alarms?

________________

c. What must you read before installing a smoke alarm?

________________

d. Where is the best place to install a smoke alarm?

________________

e. How many smoke alarms does the law say must be installed?

________________

f. Where does Fire & Rescue NSW say to install smoke alarms?

3. Read the information about installing smoke alarms again. Find phrases of place, time and manner to complete these sentences.

a. Battery powered smoke alarms can easily be installed ____________ or handymen.

b. Hardwired smoke alarms must be installed ____________ or professional installer.

c. Always read the smoke alarm instructions ____________.

d. Smoke alarms work best when they are installed ____________ away from walls and fittings.

e. The law requires one smoke alarm to be installed ____________ of a home.

f. Fire & Rescue NSW recommend installing smoke alarms ____________ leading from the kitchen to the bedrooms and in all bedrooms.

4. Look at this house plan. Complete these sentences.

![House Plan]

a. There are _________ smoke alarms in this house.

b. There are _________ bedrooms in this house.

c. There is a smoke alarm _________ the living room and the study.

d. There are smoke alarms in all the _________ .

---

### Checking Smoke Alarms

1. Read these instructions.

   1. Test your smoke alarm batteries every month by pressing and holding the test button for five seconds. Replace batteries every 12 months.
   2. Vacuum dust off alarms every six months.
   3. Replace smoke alarms with a new photoelectric alarm every ten years or earlier, if specified by the manufacturer.

ReAlarm your home against fire.

For more information on smoke alarms, visit: fire.nsw.gov.au and planning.nsw.gov.au

2. Draw a line to match the instructions with the time.

   a. Test your smoke alarm
      
   b. Clean your smoke alarm
      
   c. Change your alkaline smoke alarm battery
      
   d. Install a new smoke alarm
      
   - every six months
   - every ten years
   - every month
   - once a year
Unit 3  Fire Safety and Children

It's not a toy!

1. Read this recount

Don't play with matches

The McGowan family had an eventful day yesterday. Mary McGowan and her four young daughters went to the supermarket. They had invited friends over for a barbeque on the weekend so Mary bought boxes of matches to light the barbeque.

After shopping Mary put the shopping bags on the kitchen floor. Mary was unpacking the bags when the phone rang. While Mary chatted to her sister, her three-year-old daughter Rachael looked for lollies in the shopping bags.

Suddenly Mary heard Rachael screaming. She threw down the phone and raced to the kitchen. The tablecloth was on fire. The flame was spreading very quickly and it started to burn the edge of the curtain.

Amy, the eldest daughter, ran next door and told the neighbours that her house was on fire.

Ray Thomas, the next-door neighbour, dashed to Amy's house. He grabbed a garden hose in the front yard and turned on the tap. He rushed through the door and immediately sprayed the water on the fire. He told the girls to get out of the house.

Ray's teenage daughter, Kim, called triple zero for help. The firemen arrived in five minutes but Ray and Mary had managed to put the fire out.

It was a happy ending even though Rachel was frightened and had slightly burnt her finger. The McGowans had to toss out their tablecloth and get a new curtain. Two weeks later they invited Ray and his family in for a barbeque to thank them.

The McGowans learnt a few lessons from this experience. Mary learnt not to leave matches near her children and the daughters learnt not to play with matches. The family also made a fire-escape plan, installed smoke alarms around the house and bought a fire extinguisher.

2. Read the recount again. Write the correct names to complete the sentences.

a. ____________ is the next door neighbour.
b. ____________ is the three-year-old daughter.
c. Mrs McGowan’s name is ____________.
d. ____________ is the McGowan's eldest daughter.
e. ____________ is Ray’s teenage daughter.

3. Read the recount again. Match the people with the actions.

| a. Mary McGowan | • invited Ray and his family to a barbeque. |
| b. Rachael McGowan | • grabbed the garden hose. |
| c. Amy McGowan | • phoned 000. |
| d. Ray Thomas | • played with matches. |
| e. Kim Thomas | • ran next door. |
| f. The McGowans | • bought matches. |

4. When you tell or write a recount, you need to put the events in the order they happened. Read the recount again and number the events in the correct order. The first one has been done for you.

- The fire engine arrived.
- The McGowans installed smoke alarms and made a fire-escape plan.
- Mary and her children went to the supermarket.
- Rachael played with matches and started the fire.
- Ray and Mary put out the fire.
- Mary left the grocery bags on the floor.
- Ray ran and picked up the garden hose.
- Mary answered the phone.
- Kim phoned 000.
- Ray sprayed the water on the fire.
- Amy ran next door to get help.
5. Complete these noun groups from the recount.
   a. the _______ family
   b. an _______ day
   c. her four _______ daughters
   d. the _______ bags
   e. the _______ floor
   f. her _______ daughter Rachael
   g. the _______ of the curtain.
   h. Amy, the _______ daughter
   i. Ray Thomas, the _______ neighbour
   j. a _______ hose
   k. the _______ yard
   l. Ray’s _______ daughter, Kim
   m. a _______ ending
   n. a _______ curtain
   o. a _______ lessins
   p. a _______ plan
   q. a _______ extinguisher

Children and Fires

1. Discuss this information in a group.

Children are often fascinated with fire, but they rarely understand the consequences of playing with it. Many fires and burn injuries are caused by curious or unsupervised children.

What do you think is the most common way children start fires?

2. Read what the Fire & Rescue NSW advises families. Tick if Mary followed their advice.

   a. Teach children that fire is not a toy. True False
   b. Keep lighters and matches away from children. True False
   c. Install smoke alarms and check them regularly. True False
   d. Know where your children are and what they are doing at all times. True False
   e. Teach your children fire survival skills such as Get down low and go go go True False
   f. Teach your children fire survival skills such as get down low and go go go True False
   g. Teach your children to call 000 BUT only in an emergency. True False
3. Cross out what’s hot.

Making your Children Safe from Fire

Many fires and burn injuries are caused by curious or unsupervised children. Practice these simple steps to reduce the risk of fire or injury in your home.

- Teach your children to call Triple Zero '000' in an emergency.
- When cooking on the stove, turn pot handles inward to prevent children reaching up and pulling the pot down on themselves.
- Keep matches and lighters out of reach of children.
- Teach your children never to play with matches or fire.
- Design and discuss a home escape plan with your whole family.
- Place smoke alarms in children's sleeping areas.
- Teach your children to 'get down low and go go go' if smoke in your home makes it hard to breathe.
- Teach your children to 'stop, drop, cover and roll' if their clothes catch on fire.
- Ensure children are never left alone near open fires, heating devices or BBQs.
- For a child-friendly approach to learning about fire safety visit www.brigadekids.com.

- **Draw a floor plan of your home, including two ways of escape from each room.**
  - Plan an escape route and ensure everyone knows how to get out.
  - Keep door and window keys in or next to locks so they can be opened easily.
  - Decide on a meeting place outside e.g. the letterbox.
  - Provide alternatives and someone to assist for anyone with a disability.

Children need constant supervision to protect them from the dangers of fires, burns, and scalds.
